An Horrendous Threat By fbi Against Everyone

Fbi intentionally infects some Targets with a contagious disease.

When the fbi or cia need to force a whistleblower (or other Target) into suicide, they infect that individual with a contagious or infectious disease.

Then, with the assistance of federal magistrate judges (fmj) across the country these thugs of fbi and cia are ordered to place that infected Target into the God awful "Global Disease Surveillance System" to be treated as though he/she has leprosy.

My report on how the fbi and fmj destroy the life of a Target before they murder him:

This report should be investigated by Congress, but that group of cowards & traitors fear fbi and join in the overthrow of our Constitutional government.
